DHTZ05
Single-Use Temperature Data Logger

Applications

Transportation

Warehouse

Fresh Frozen

Fresh Produce

Pharmaceutical

Agriculture

Features

Auto Generated Secured PDF Report
Automatically Generated secured PDF report No software required to generate file.

Integrated USB Port
Integrated USB to download data report without additional interface.

Compact and slim design
The size of a product is compact and slim which enables inserting it in any product box or inside containers.

EN 12830 Compliant
Compliant with European standards to meet the demands of the transportation regulations

IP67 Protection Rating
Waterproof covered to ensures continuous data captury in several environment

Technical Specifications

|	
Type	Single-Use
Dimension	67mm*28mm*5.5mm
Weight	12 Gms
Battery Shelf Life	2 years
Report Generation	Automatic PDF Report
Alarm Range	>8°C or < 2°C
Start Delay	30 minutes
Protection Grade	IP67
Temperature Range	-30°C to +60°C
Temperature Accuracy	±0.5°C
Recording Capacity	10,000 Readings
Recording Duration	90 Days
Recording Interval	15 minutes
Time Zone	UTC+3:00

01

Press START button to turn on the device.

02

Put the started logger into your shipment cargo.
